### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. James Witherspoon on March 2, 2005.

The application has been amended as follows:

The withdrawn claims 26 and 28-41 are hereby reinstated.

35. (Currently Amended) The microwave packaging material as described in claim 1, 2, [[3, 89,]] 90 [[,]] or 91, wherein the indentation pattern comprises an array of individual, separated shapes.

107. (Currently Amended) The microwave packaging material as described in claim 104 [[,]] or 105 [[or 106]], wherein the scored impressions extend radially outward from proximate a reference location and the plurality of the scored impressions extends at least partially around the reference location.

116. (Currently Amended) The microwave packaging material as described in claim 113 [[,]] or 114 [[or 115]], wherein the reference location is a center of the microwave packaging material.

Art Unit: 3742

117. (Currently Amended) The microwave packaging material as described in claim 113 [[,]] or 114 [[or 115]], wherein:

the plurality of the scored impressions includes:

a first plurality of scored impressions, and

a second plurality of scored impressions;

the scored impressions of the first plurality of scored impressions are longer than the scored impressions of the second plurality of scored impressions; and

the scored impressions of the first and second pluralities of scored impressions are arranged in an alternating series such that each of the scored impressions of the first plurality of scored impressions is respectively adjacent a scored impression of the second plurality of scored impressions.

119. (Currently Amended) The microwave packaging material as described in claim 113 [[,]] or 114 [[or 115]], wherein:

the plurality of the scored impressions includes:

a first plurality of scored impressions, and

a second plurality of scored impressions;

the scored impressions of the first plurality of scored impressions are longer than the scored impressions of the second plurality of scored impressions; and

the scored impressions of the first and second pluralities of scored impressions are arranged in an alternating series such that each of the scored impressions of the first plurality of scored impressions is respectively positioned between a pair of scored impressions of the second plurality of scored impressions.
